Introduction

The **Weaving ASEAN Harmony Form Competition** invites university students to craft and assemble striking public artworks that **interlace the rich motifs, vibrant colours, textures, and timeless traditions of Southeast Asia** into a single inspiring creation. Each form should celebrate the spirit of Unity in Diversity by telling the story of how different cultures, beliefs, and histories stand proudly side by side, just like the nations of ASEAN that is distinct yet beautifully connected.

These form will **transform the park into a living open-air gallery, where art and nature meet**. To embody this connection, each piece must thoughtfully integrate flowering plants that is native to ASEAN context, symbolising how living elements and human creativity can flourish together in shared spaces. By day, they will invite visitors to pause and reflect; by night, they will come alive with gentle illumination, casting a warm glow that enriches the park's atmosphere and reminds us of that harmony, like a garden, thrives when nurtured together.
